FOREWORD

While Tennessee became a State on June 1, 1796, there are, with two exceptions, no surviving population schedules of the federal decennial census records before 1820. The population schedule of the census of 1810 for Rutherford County (in Middle Tennessee) was published by Miss Martha Lou Houston of Washington, D. C. in 1933. An incomplete manuscript enumerator's copy of the Grainger County schedule for 1810 is in the McClung Collection, Lawson McGhee Library, Knoxville, Tennessee. The Library plans publication of this manuscript in the near future.

With the exception of the Grainger County list for 1810, there is no surviving population schedule for any East Tennessee county before 1830.

Since the creation of Sevier County in 1794, from a part of Jefferson County, no territory has been removed from the County except in a few minor boundary changes.

The public records of Sevier County were almost completely destroyed by fire on March 26, 1856. In tracing the early residents of the County it is advisable to search the records of the adjoining counties of Blount, Cocke, Jefferson and Knox.

The Population Schedule of Sevier County for 1830, presented herein, was reproduced from a microfilm copy of the original record on file in the National Archives, Washington, D. C.

The original page numbers are carried on the left in parentheses. No attempt has been made to change the spelling of the names as written by the enumerator, George W. Porter. References will be found in the index.

The Map and Charts used in this volume are enlargements from Map of the State of Tennessee Taken from Survey by Matthew Rhea, published at Columbia, Tennessee, 1832.

Use of the material herein is subject to the terms of the copyright notice on the title page.

1830 CENSUS - SEVIER COUNTY, TENNESSEE
